Sir,

I have the honor to request that you will kindly supply me, at your earliest convenience with a list of the places & the months wherein fairs or melas are held, & the dates on which they take place, & the probable number of persons that usually collect at them. I am also of opinion some measures should be adopted for the better conservancy of these places during these festivals

I think I can best explain what up to date practically nothing has been done & this direction I mean that these festivals are often the means of disseminating Cholera broadcast throughout the entire country. I am quite sure that the subject should be taken up. & I shall be very glad to have an expression of your views upon the subject.

I am a well known fact that 1st that with regulation, supervision, a fair staff of workers & good organization, the Hindu people at the pilgrimages are as cleanly inclined as any other people in the world. - If the arrangements are provided, & strictly insisted on & enforced, no difficulty arises, - a concentration of several thousands can be as perfectly wholesome as for the disposal of excreta is concerned as a small gathering - or troops.

2nd That pilgrims will use for drinking purposes filtered water, if it is easy of access as other water.

Should you agree with me, & are ready to lend me your support I shall draw up a scheme - for what might be called a "Flying Sanitary Column." whose duties should be to attend these several festivals, & make special to the disposal of the excreta & (where possible) & the water supply & for preventing the contamination of sources which already exist.

I have the honor to be

Dear Sir

My Dear Mr Whitmajor

It appears there was only one copy of those rules and that the Sanitary Engineer has it with him; and I am therefore unable to send any. probably he will let the Municipal Secretary have it, if he writes to him

Yours very truly
